

Info Tech Guide Digital Agency

META ADS GROWTH PARTNER

Meta Ads Performance Proposal

Your Business Deserves A **Digital Pehchan**, Backed By Real Results.

We run Facebook and Instagram Ads (Meta Ads) to generate qualified leads, messaging conversations and sales for your business — not just promises, but real screenshots from proven ad accounts.

Info Tech Guide — Your Business's Voice In The Digital World.

Info Tech Guide is a performance-focused Meta Ads partner. Our job isn't just to run ads — we focus on bringing real conversations, real leads and real ROI to your business. The results shown below are taken directly from our own live ad accounts.

1

Meta Ads Setup & Strategy

Choosing the right campaign objective (Messages, Leads, Engagement) based on your business goal, and setting up precise audience targeting.

2

Creative & Copywriting

Attention-grabbing creatives and ad copy that stop the scroll and drive action — whether it's a message, a call, or a visit.

3

Daily Monitoring & Optimization

We track cost per result, reach and quality every day, fine-tuning budget and targeting along the way.

TRANSPARENT REPORTING

How We Work On Meta Ads

A simple, transparent and result-driven process, customised for every business type — hospitality, education, travel, real estate or local services.

01

Business & Audience Research

First, we understand the business — who the target customer is, where they're active, and what their pain point is.

02

Campaign Objective Selection

Based on the goal, we choose a Messages, Engagement or Leads campaign — exactly as shown in the results ahead.

03

Targeting & Budget Setup

Precise targeting based on location, age, interest and behaviour, so the budget reaches the right audience.

04

Launch & Daily Optimization

Once the campaign is live, we check cost-per-result, reach and delivery daily and make the necessary changes.

05

Lead Quality Check & Reporting

We track not just lead count but lead quality too — through daily follow-up and reporting with the team.

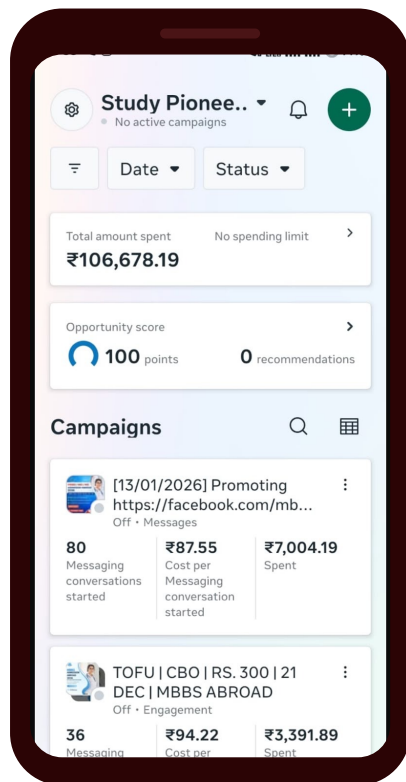

06

Client Feedback Loop

We take regular feedback from every client, so along with ad results, service satisfaction stays at its best.

Unfiltered, Real Meta Ads Manager Results

All these screenshots are from our live Meta Ads Manager accounts — before onboarding, you can see for yourself the kind of delivery and cost-per-result we achieve.

Education Niche · MBBS Abroad

Study Pioneer — Lead & Messaging Campaigns

In this education-sector account, we ran messaging campaigns that started consistent conversations at a low cost-per-conversation.

What Our Clients Say

Along with results, client satisfaction is our priority too — below are real WhatsApp conversations with our active clients.

Team & Client Communication

We don't just run ads — we maintain regular touchpoints with clients too, so trust in the results stays strong.

Not Just Another Agency, Your Growth Partner

There are plenty of agencies in the digital marketing world — we set ourselves apart through proof, transparency and daily optimization.

100% Transparent Reporting

Where every rupee is spent and what result it brings — all shared with you through live Ads Manager screenshots.

Daily Optimization

We don't leave campaigns on set-and-forget — cost-per-result and delivery are checked every single day.

Quality-First Leads

We track lead quality, not just lead count — so your sales team's time is spent in the right place.

Multi-Industry Experience

Education, travel, hospitality and local services — experience working across a wide range of industries.

Every business has a different goal, budget and audience — so instead of pushing a fixed package, we first understand your business and build a custom Meta Ads plan. The final proposal will be shared once we've discussed your requirements.

Ready To Grow?

Let's Build The **Same Kind** **Of Growth** For Your Business Too.

Book a free discovery call — we'll understand your business, goals and budget, and present a custom Meta Ads strategy, backed by real results just like these.
